Repair all Finished Woods

Scratches and nicks disappear from finished wood in seconds with Kampel ColorStik. Simply choose the ColorStik that matches your finish from our generous selection of 12 standard colors. Rub the ColorStik into the defect, then wipe off the excess with a clean cloth. It's that easy!

With ColorStik, you can hide nail holes, repair scratches and nicks, and touch-up woodworking projects with ease. ColorStik blends beautifully with existing finished surfaces. Use it on furniture, cabinets, paneling, veneers, picture frames – anything made of wood. And use it with confidence, because ColorStik is safe and non-toxic.

Choose desired ColorStik color.

Quality You'll Count On

-Service You Can Trust

More than 40 years of experience and craftsmanship go into every Kampel product. And because we've built our success on customer satisfaction, we still make "quality and service" the most important part of every product we manufacture.

ColorStik is packaged for the professional tradesman in 12 Assorted Colors. One box keeps all 12 colors neat and organized. For specific projects, your distributor also has single Stiks available.

For larger holes and defects, use Kampel WoodFil, also available in 12 Standard Woodgrain Colors.

Rub ColorStik into defect.
